Report of Independent Registered Public Accounting Firm

To the Members of
Driehaus Securities LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Driehaus Securities LLC (the Company) as of December 31, 2017 and the related notes (the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company at December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the Company's auditor since 2002.

Driehaus Securities LLC

Notes to Statement of Financial Condition

December 31, 2017

1. Organization and Significant Accounting Policies

Driehaus Securities LLC (the Company) is a Delaware limited liability company organized on October 5, 2005. The Company is the surviving entity of a merger on January 1, 2006, with Driehaus Securities Corporation, a Delaware S-Corporation organized on June 22, 1979. The Company's members are Driehaus Capital Holdings LLLP and RHD Holdings LLC. The Company is a registered limited purpose broker-dealer with the Securities and Exchange Commission (SEC) under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA). The Company serves as the distributor of the Driehaus Mutual Funds and Driehaus limited partnerships and provides marketing and placement services to its affiliate, Driehaus Capital Management LLC (DCM), a registered investment adviser, in connection with private funds and other investment products advised by DCM.

The following is a summary of significant accounting policies followed by the Company in the preparation of its statement of financial condition.

- a. The Company's statement of financial condition has been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The preparation of the statement of financial condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the statement of financial condition and accompanying notes. Management believes that the estimates utilized in preparing its statement of financial condition are reasonable and prudent. Actual results could differ from those estimates.
- b. Cash equivalents consist of money market mutual funds valued at reported net asset value and short-term highly liquid investments having a maturity of 90 days or less at the time of purchase.
- c. The financial instruments of the Company are reported on the statement of financial condition at market or fair values, or at carrying amounts that approximate fair values.

The Company is subject to fair value accounting standards that define fair value, establish the framework for measuring fair value, and provide a three-level hierarchy for fair valuation based upon the inputs to the valuation as of the measurement date.

Driehaus Securities LLC

Notes to Statement of Financial Condition (continued)

1. Organization and Significant Accounting Policies (continued)

The three levels of the fair value hierarchy are as follows:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table presents the Company's fair value hierarchy for financial instruments valued at fair value as of December 31, 2017:

Valuation Inputs	Level 1	Level 2	Level 3	Total
Cash equivalents:				
Money market mutual funds	\$6,236,304	\$ –	\$ –	\$6,236,304

Transfers between levels, if any, are recognized as of the last day of the calendar year in which the event or change in circumstances that caused the reclassification occurred.

There were no Level 3 assets and no transfers between levels during the year ended December 31, 2017.

2. New Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09), which supersedes current revenue recognition guidance, including most industry-specific guidance. ASU 2014-09, as amended, requires a company to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services, and also requires enhanced disclosures.

The Company has identified its revenues and costs that are within the scope of the new guidance. The Company anticipates that its current methods of revenues and expenses will not be significantly impacted by the new guidance.

Driehaus Securities LLC

Notes to Statement of Financial Condition (continued)

2. New Accounting Pronouncement (continued)

The Company will elect to adopt the new guidance using the modified retrospective approach applied to all contracts as of the date of initial application at January 1, 2018. At this time, electing the modified retrospective approach would result in no cumulative effect adjustment to the opening balance of members' equity at the date of initial application.

3. Income Taxes

The Company is considered a partnership for federal income tax purposes. Therefore, no provision for federal income taxes has been made because the taxable income or loss of the Company is included in the income tax returns of the members.

The Company is subject to Illinois state replacement tax at a rate of 1.5% of its taxable income. However, because both of the Company's members are themselves subject to Illinois state replacement tax, the Company has no Illinois state replacement tax liability, and no provision for state replacement taxes has been made.

FASB's Accounting Standards Codification (ASC) 740, *Income Taxes* (Tax Statement), requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold along with any interest and penalties would be recorded as a tax expense on the statement of operations in the current year. The Company has evaluated all tax positions and has determined that no liability for tax or related interest and penalties is required to be recorded in the statement of financial condition as of December 31, 2017. In addition, no such liabilities are expected in the next 12 months. The Company files tax returns with the U.S. Internal Revenue Service and the state of Illinois. The tax years 2014 through 2017 remain subject to examination by taxing authorities.

4. Related Parties

Richard H. Driehaus is the Chairman of the Company. Richard H. Driehaus is also the Chairman of DCM. The Company and DCM have entered into an Expense Allocation and Services Agreement (Agreement) whereby the Company provides marketing and placement services to DCM.

Driehaus Securities LLC

Notes to Statement of Financial Condition (continued)

4. Related Parties (continued)

For these services, DCM compensates the Company based on industry rates and practices for comparable services, but in an amount that is no less than the direct expenses and any shared expenses, as outlined in the Agreement dated January 1, 2011, allocated by DCM to the Company. At December 31, 2017, there were receivables due from DCM of \$706,500 for those marketing and placement services included in due from affiliates on the statement of financial condition.

The Company pays fees to intermediaries who provide shareholder administrative and/or sub-transfer agency services to the Driehaus Mutual Funds. The Company is fully reimbursed for these fees under the terms of two agreements: (i) a fee reimbursement agreement under which certain Driehaus Mutual Funds reimburse the Company for certain service fees and (ii) the Agreement with DCM. At December 31, 2017, the amount receivable from Driehaus Mutual Funds and DCM was \$575,780 and \$974,135, respectively. Those amounts are included in due from affiliates on the statement of financial condition.

Per the Agreement, DCM provides to the Company certain services, facilities, equipment, and personnel necessary for the operation of the Company's business, in addition to office space and associated services. Expenses for these services are allocated between the Company and DCM as outlined in the Agreement. Additional expenses may be paid by DCM and then reimbursed by the Company. These related-party allocations and transactions may result in an intercompany payable, pending reimbursement. During the year ended December 31, 2017, the Company overpaid DCM for these shared expenses, resulting in no payable due to DCM at December 31, 2017. At December 31, 2017, the overpaid amount of \$410,949 is included in due from affiliates on the statement of financial condition.

The Company sponsors two defined contribution plans (the Plans) covering all eligible employees of the Company and adopting employers. The Company and adopting employers may elect to match employees' contributions and make further discretionary contributions to the Plans, subject to certain limitations as set forth in the Plan agreements and the Internal Revenue Code. DCM, an adopting employer of the Plans, allocates a portion of such employer contributions to the Company pursuant to the Agreement. At December 31, 2017, there is no payable due to DCM for the allocation.

Driehaus Securities LLC

Notes to Statement of Financial Condition (continued)

5. Net Capital Requirement

The Company is subject to the SEC *Uniform Net Capital Rule* (Rule 15c3-1) under the Securities Exchange Act of 1934. Under the Rule, the Company is required to maintain minimum net capital equal to \$5,000 or 6 2/3% of aggregate indebtedness, whichever is greater, as these terms are defined.

Net capital and aggregate indebtedness change daily. At December 31, 2017, the Company had net capital of \$5,498,505 which was \$5,420,600 in excess of its required net capital of \$77,905. At December 31, 2017, the percentage of aggregate indebtedness to net capital was 21%.

The net capital rules may effectively restrict the payment of equity withdrawals.

6. Indemnifications

Consistent with standard business practices, the Company has provided general indemnification to affiliates, associates, employees, or agents when it acts, in good faith, in the best interest of the Company. The Company expects the risk of having to make any payments under these general business indemnifications to be remote.

7. Subsequent Events

Management has evaluated events or transactions through the date the statement of financial condition was available to be issued, and has determined there are no subsequent events that require recognition or disclosure in the statement of financial condition.
